Mounting frames attributes

- 15 year guarantee
- easy and fast installation
- load capacity 400/150 kg
- height adjustable mounting frames partitions
- 25 25 years availability of spare parts

Installation of WC systems and mounting frames You can handle it quickly and easily

Alca WC systems and mounting frames are designed to make the installation process as simple as possible. Thanks to the well-thought-out construction and intuitive design, mounting is simple and can be done by one person without the need for additional assistance.

Anchor feet brake

The feet brake system allows setting the necessary building height of the frame and then you only ensure its final position by tightening.

Quick fixing to the wall using the EASY LOCK system

The new construction solution enables mounting the frame to the wall in half the time.

Sliding holder for waste elbow

It is possible to move the waste elbow horizontally and change its distance from the supporting frame to eight positions up to a total of 93 mm.

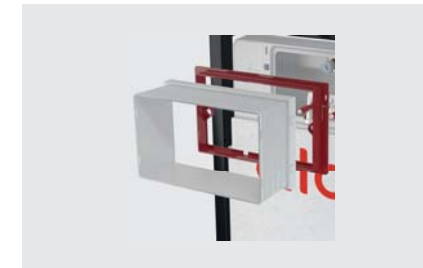

Marking pins for easier installation of plasterboard

The pins enable precise and quick marking of the position on the plasterboard where the cutout will be made and ensure the correct placement of the WC system.

Water supply hose with o-ring

The bayonet mechanism allows the connection of the hose and the inlet fill valve without tools. Everything can be tightened just by hand.

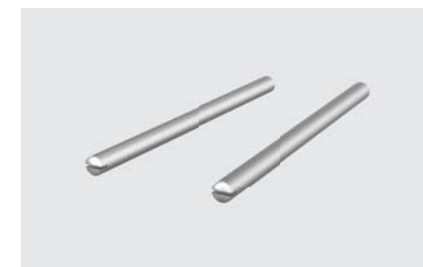

Installation frame and sleeve

Installation is accomplished by simply clicking it in the prepared openings, thus greatly speeding up the installation time.

Extra accessories included in the package

The packaging of every product contains a complete set of installation accessories for mounting the WC bowl, including anchoring material and all necessary installation caps.

Threaded rods with groove

Convenient installation of toilet bowl. The threaded rods newly include a groove for a speedier installation.

Pre-wall installation systems

Basic

AM115/1000 Renovmodul
Pre-wall installation system for building into solid walls

AM112 Basicmodul
Wall concealed WC cistern

AM100/1000 Alcamodul
Pre-wall installation system for building into solid walls

AM100/850 Alcamodul
Pre-wall installation system for building into solid walls with a reduced height of 850 mm

AM115/1000V Renovmodul
Pre-wall installation system with ventilation for building into solid walls

AM101/1000 Sádromodul
Pre-wall installation system for dry build up (plasterboard) with a reduced height of 1000 mm

AM101/850 Sádromodul
Pre-wall installation system for dry build up (plasterboard) with a reduced height of 850 mm

AM101/1120 Sádromodul
Pre-wall installation system for dry build up (plasterboard)

AM102/1120 Jádromodul
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units)

AM102/1000 Jádromodul
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units) with a reduced height of 1000 mm

AM102/850 Jádromodul
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units) with a reduced height of 850 mm

Legend

- WC tablets dispenser
- System with connector for extraction fan
- Top actuation
- Flushing system 2/4 l
- For wooden construction houses
- H = installation depth

Ecology

AM100/1000E Alcamodul

AM115/1000E Renovmodul
Pre-wall installation system ECOLOGY for building into solid walls

AM101/1120E Sádromodul
Pre-wall installation system ECOLOGY for dry build up (plasterboard)

AM102/1120E Jádromodul
Pre-wall installation system ECOLOGY for dry build up (especially for renovation of concrete panel housing units)

WC systems Slim with a smaller construction depth

AM1112 Basicmodul Slim
Wall concealed WC cistern

AM1115/1000 Renovmodul Slim
Pre-wall installation system for building into solid walls

AM1101/1200 Sádromodul Slim
Pre-wall installation system for dry build up (plasterboard)

AM1112P Basicmodul Slim
Wall concealed WC cistern with reinforcing fibreglass mesh

AM1115P/1000 Renovmodul Slim
Pre-wall installation system for building into solid walls with reinforcing fibreglass mesh

AM1101P/1200 Sádromodul Slim
Pre-wall installation system for dry build up (plasterboard) with reinforcing fibreglass mesh

For wooden construction houses

AM101/1120W Sádromodul
Pre-wall installation system for dry build up (plasterboard)

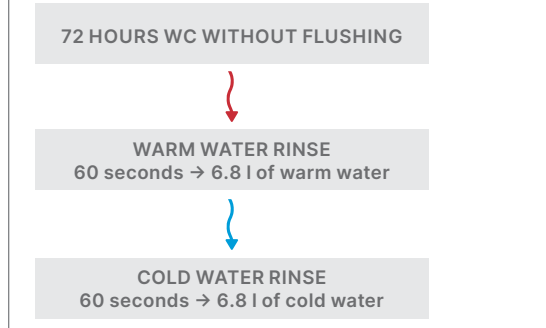

AM101/850W Sádromodul
Pre-wall installation system for dry build up (plasterboard) with a reduced height of 850 mm

Automatic pipe flushing function

AM121/1120 Sádromodul
Pre-wall installation system with integrated hygienic pipe flushing function

P195
Remote control for AM121

The hot and cold water flush timer is factory set. If the settings do not suit you, you can purchase the P195 controller and set the flushing according to your requirements.

Flush plates compatibility with Alca WC systems

Flush plates Alca are fully compatible with all types of Alca WC systems. Experiment with shapes, materials and colors in your bathroom.

Accessories

A wide range of accessories for Alca WC systems and mounting frames allows you to further expand their functions and adapt them to individual needs. Whether you are looking for higher legs for positioning at non-standard heights, various installation sets for specific types of toilets or special waste elbows shapes for complex piping distributions, you will find everything you need at Alca.

For people with reduced mobility

AM116/1300H Solomodul
Pre-wall installation system for dry build up (self-supporting) – for people with reduced mobility

AM101/1300H Sádromodul
Pre-wall installation system for dry build up (plasterboard) – for people with reduced mobility

A106/1120
Mounting frame for handle

AM101/1500L Medic Assistant
Pre-wall installation system for dry build up, height adjustable – for people with reduced mobility

Features of Alca WC systems

- Compatible with all flush plates Alca
- Year guarantee
- Simple and fast installation
- Load capacity 400 kg
- The system can be adjusted to flush from 2 to 9 liters of water
- 25 years availability of spare parts
