## World design

Alca is a trendsetter in the world of design. This is proven by the awards, which the company has received in recent years. In 2024, we earned the second Red Dot award, this time for the series of flush plates Linka and Dot.Dot. The collection also appealed to the jury of the iF Design Award competition in the same year. Alca has also won awards for its WC flush plates in previous years, specifically the Red Dot in 2014 and the iF Design Award in 2018.

However, not only flush plates are successful in design competitions, our invisible outdoor drainage channel solution impressed the judges at the ISH trade fair and they awarded it the Design Plus ISH 2023.

# Perfectly functional

The exclusivity of WC flush plates lies in their precise craftsmanship, innovative design, and the use of state-of-the-art technologies. They offer a wide range of color options, allowing them to match any interior style.

**100%** Compatibility with Alca WC systems

 Flush plate with tilting mechanism

 Anti-fingerprint

 Antibacterial finish

 Touch-free control

Flush plate MOON,  
WC system AM101/1120

## Compatibility with Alca WC systems

The Alca flush plates are fully compatible with all types of Alca WC systems, even with older ones already built in. Experiment with shapes, materials and colors in your bathroom.

**100%**

## Tilting

For more convenient refilling of toilet tablets, the flush plates are equipped with a tilting system. This allows you to easily tilt the flush plate without the use of any tools, insert the WC tablet into the tablet dispenser and put the flush plate back on.

Toilet tablets dispenser is included with all WC systems Alca (with the exception of the Slim and WOOD systems). The toilet tablets dispenser can be used also with the older, already built-in WC systems Alca (with the exception of Slim and WOOD), product code P169.

**P169**  
Set for inserting WC tablets

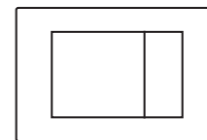

## Anti-fingerprint

The surface of the flush plates has a special protective layer, which does not show fingerprint marks. In addition to the aesthetic function this adjustment also has other benefits. The flush plates do not have to be treated so often, thereby significantly increasing their longevity.

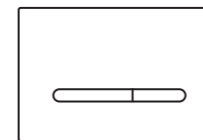

## Antibacterial treatment

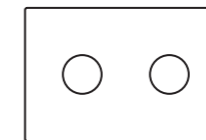

Selected flush plates with black-matt and white-matt finishes come with an antibacterial surface treatment. The upper transparent varnish contains silver nanoparticles, which have antibacterial properties and prevent the spread of unwanted micro-organisms on the surface of the flush plate. When you combine them with antibacterial toilet seats you can prevent the spread of bacteria in your bathroom more efficiently.

**Safe environment without bacteria**  
The cleanliness of the toilet area is still a very important criteria when judging how people feel within it. Our unique technology in the surface treatment of selected flush plates Alca creates an impeccable film which prevents the spread of bacteria. Because of their easy maintenance, they are ideal for the use in public areas where these specially treated surfaces are desirable (hospitals, restaurants, schools).

## Touchless control

What will guarantee a zero percent transfer of bacteria?  
Touch-free control. With one elegant gesture, you handle everything, keeping your body free from contact with bacteria.

# Flush plates series

## Basic

Primary collection of flush plates include series **Basic 2 (M27X)** and **Basic 7 (M7X)**.

These flush plates distinguish themselves above all for their excellent price quality ratio.

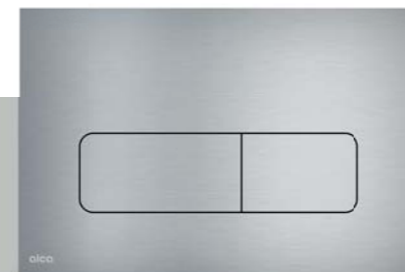

Easy maintenance and long-term UV stable color are the key features of basic flush plates.

## Thin

The Thin category includes **Thin 5 (M57X)**, **Thin 6 (M67X)**, **Thin 7 (M77X)**, **Linka (M187X)** and **Dot.Dot. (M197X)**.

These flush plates stand out above all with their satin surface, wide range of colors and their thinness of only 5 mm.

## Flat

Premium flush plates include the **Ray**, **Moon**, **Turn**, **Fun** and **Air** series.

Premium flush plates Flat are made of fine materials such as brushed aluminum, stainless steel, brass or glass.

## Special

The special flush plates include the **Night Light** series, **sensor flush plates**, **automatic WC and urinal flushing systems**, **Antivandal** and **remote pneumatic flushing**.

These flush plates are primarily intended for toilets with specific requirements such as touchless control or flushing from a remote location.

# Basic

The basic economic range of flush plates meets the high demands of everyday use, such as long life, constant color and simple maintenance.

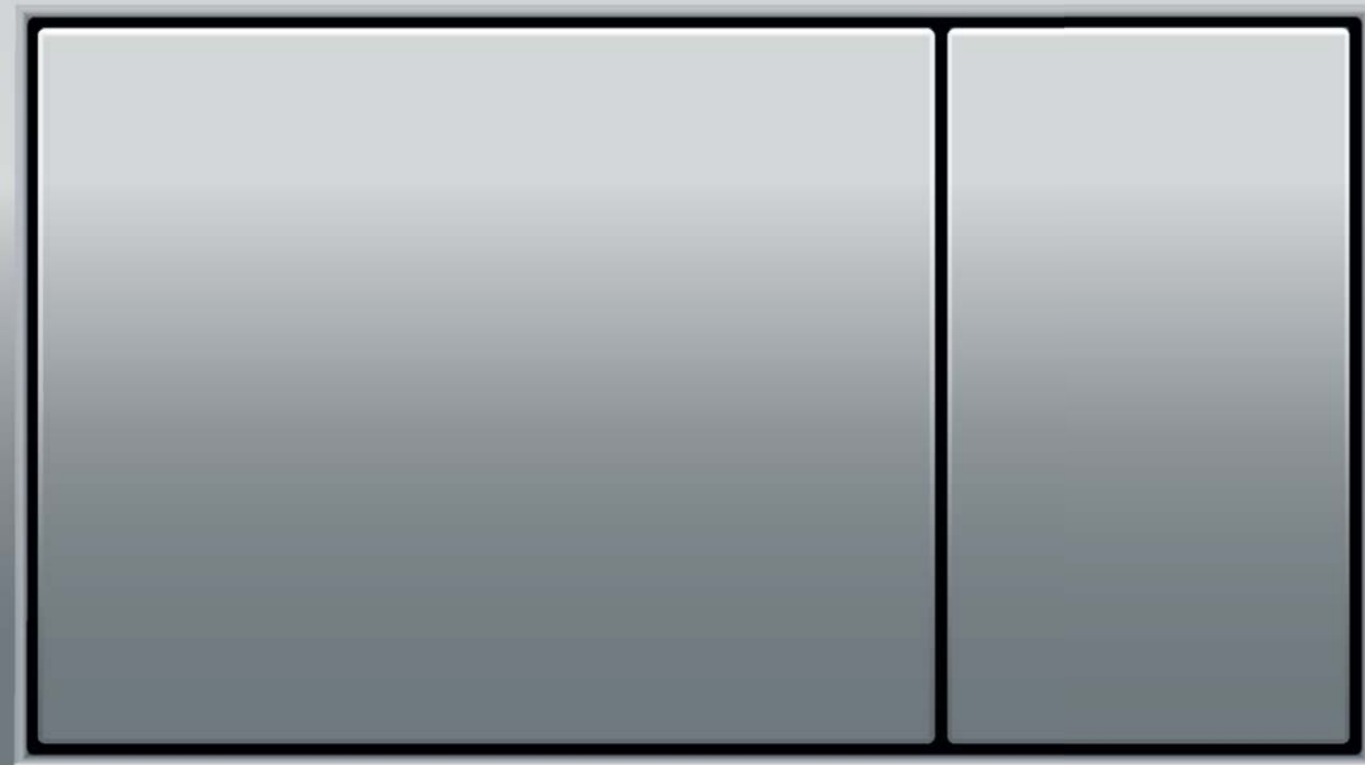

**100%** Compatibility with Alca WC systems

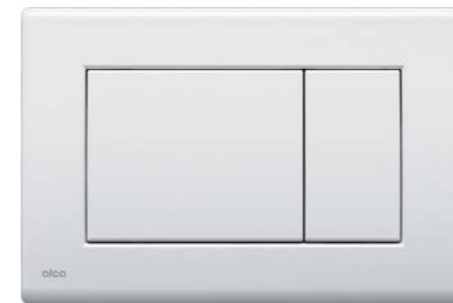

Flush plate M278,  
WC system AM102/1120,  
shower drain APZ6 with grid FLOOR

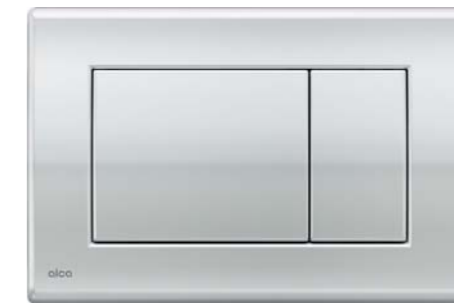

Like the other series of flush plates, they are equipped with a dual-flush technology, allowing significant water savings. The flush plates are made of durable plastic, making them the best choice when seeking for excellent value for money. Due to full compatibility, they can be used with all Alca WC systems.

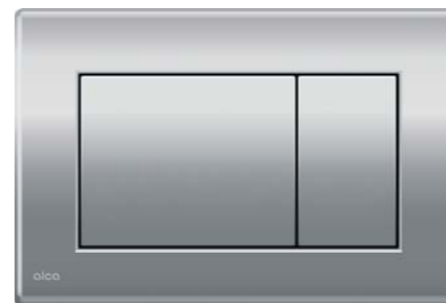

## Basic 2

**M270**  
White-polished

**M271**  
Chrome-polished

**M272**  
Chrome-matt

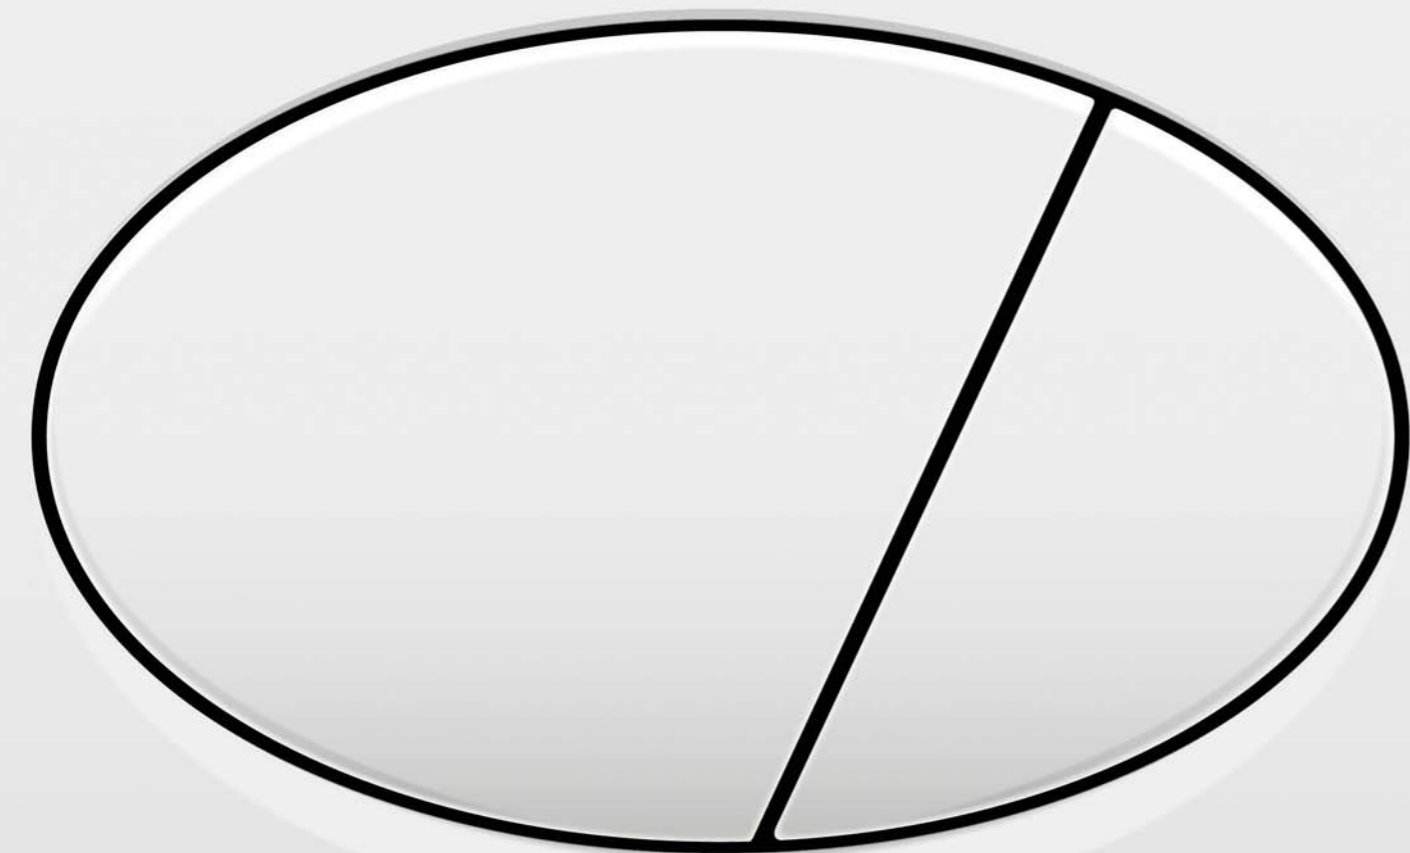

**M278**  
Black-matt

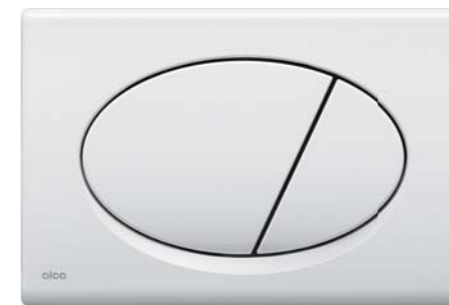

**M275**  
Gold-polished

The basic flush plates series Basic 2 represents the perfect combination of simplicity and functionality. This collection offers five color variants. The surface finish of the black-matt flush plates featuring antibacterial properties ensured by the presence of silver compounds, provides hygienic protection.

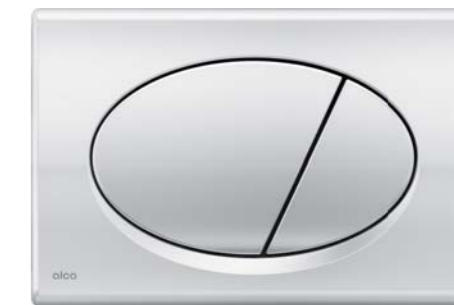

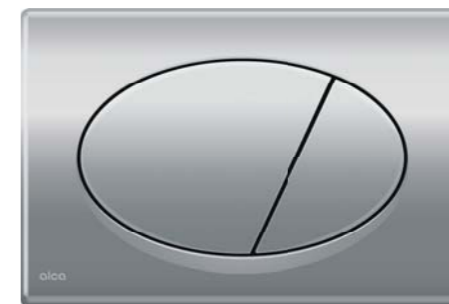

## Basic 7

M70

M71  
Chrome-polished

M72  
Chrome-matt

M75  
Gold-polished

The first design of flush plates, which we have offered for over 20 years, has become an icon in the company's portfolio. Although we at Alca continually introduce new designs and materials, the original flush plates remain popular and well-loved among our customers. Their timeless design and reliable functionality make them a staple on the market, enjoying constant recognition.

# Thin

The flush plates Thin thanks to its flat profile stand out only five millimeters above the tiles.

**5**  
mm Flat profile – only 5 mm above the tile surface

**M1876-1**  
White-matt/chrome-polished

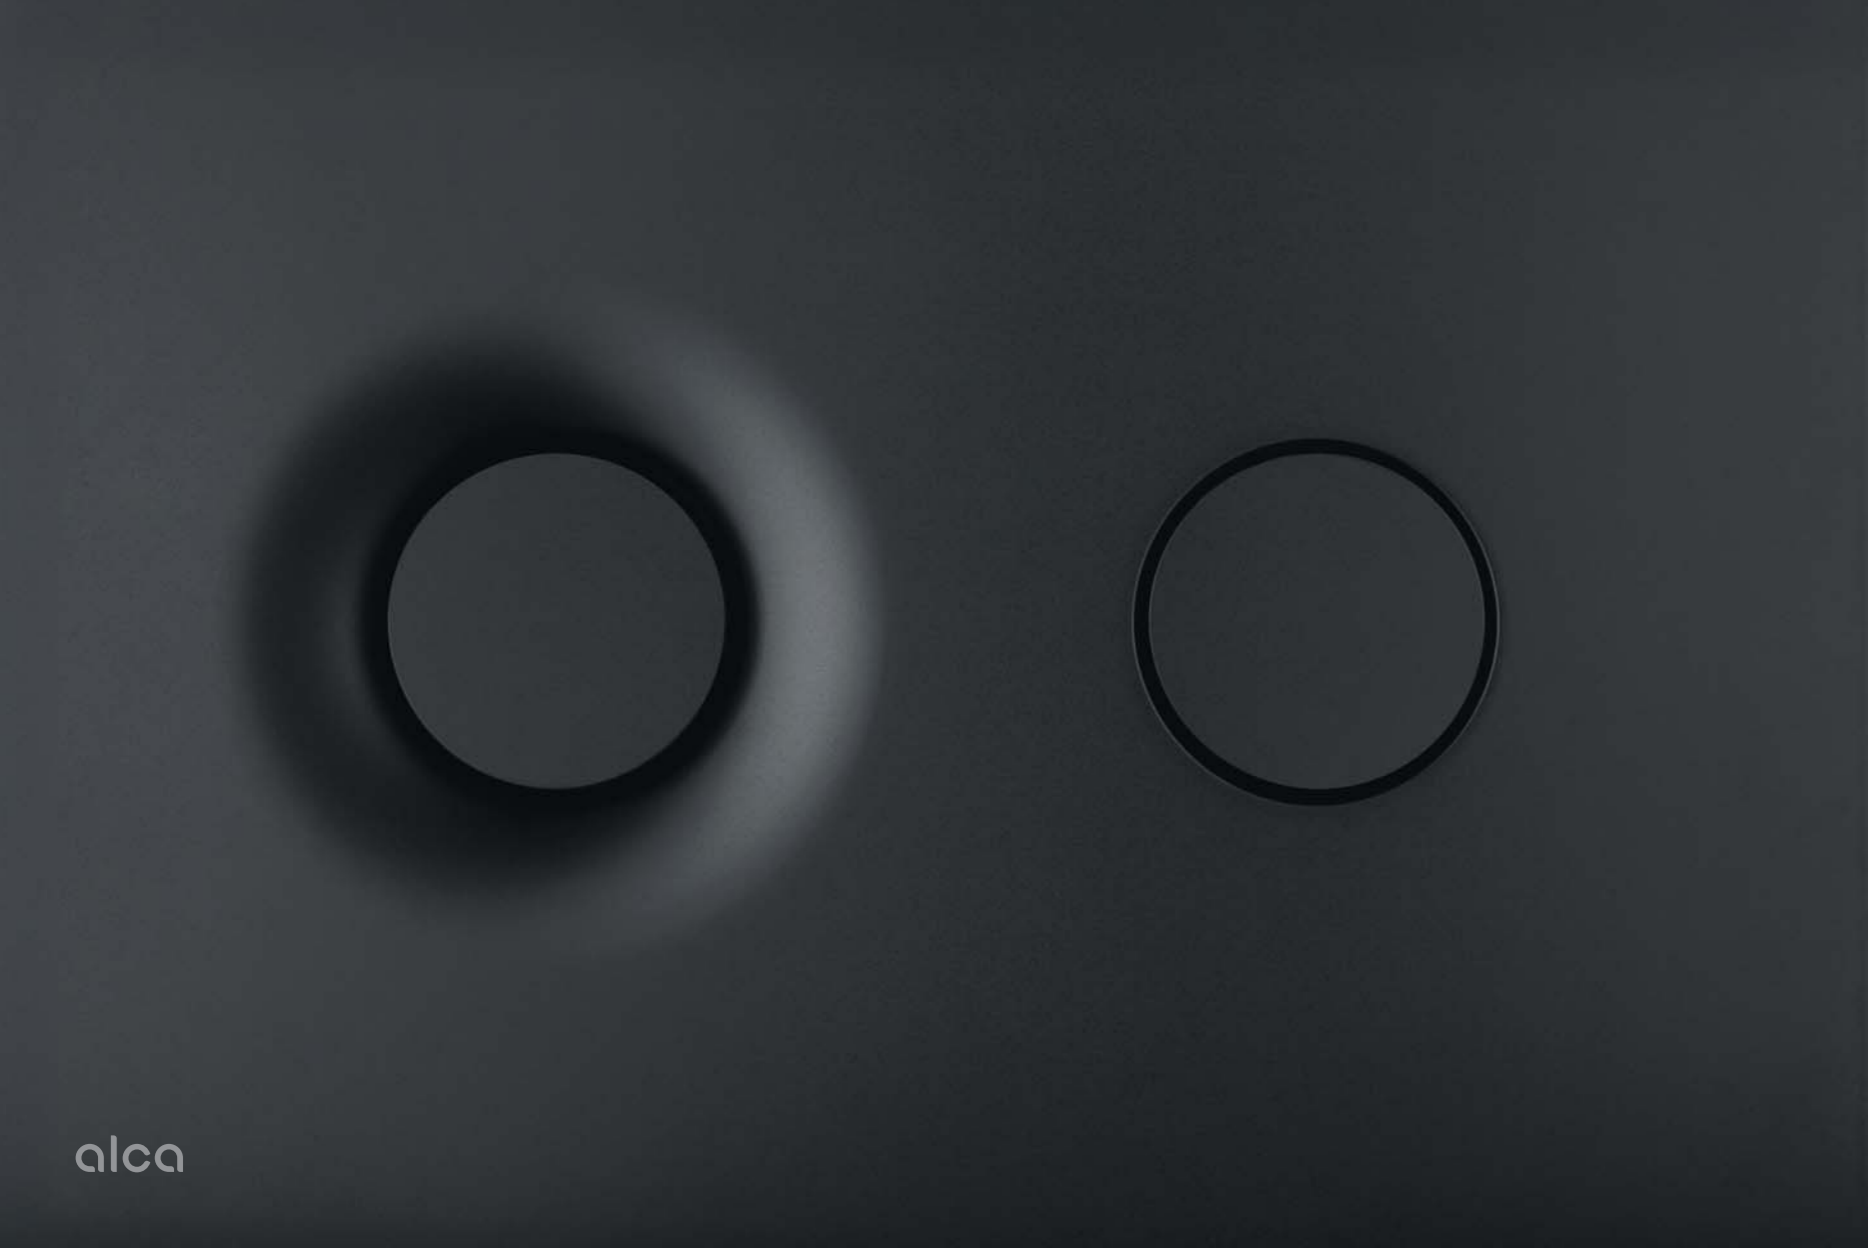

**M1878**  
Black-matt

**M1878-7**  
Black-matt/gold-matt

The flush plate is inspired by the shapes and lines of modern architecture. At first glance, it looks ultimate and uncompromising. Yet the round shape of the ripple softens the overall expression of the flush plate thus makes the impression of kindness and balance. In addition, the Linka flush plates are so thin that they blend in with the tiling.

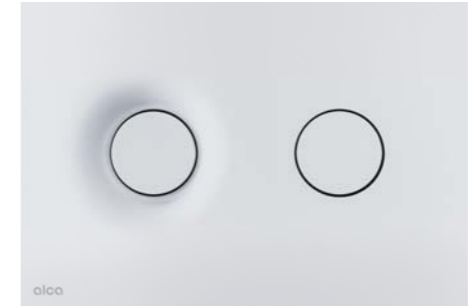

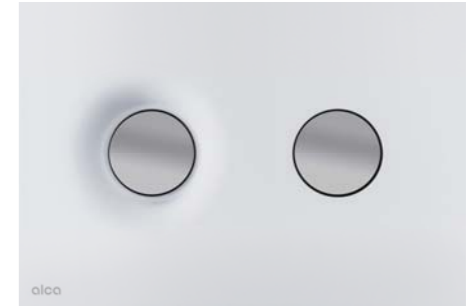

# Dot.Dot.

reddot winner 2024

## Moon

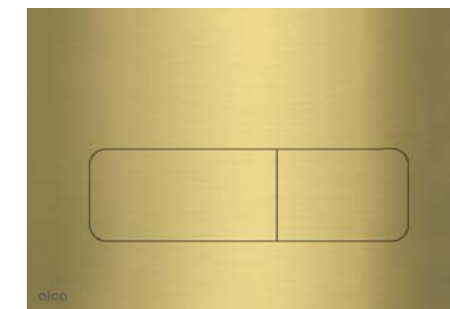

**MOON**  
Alunox-matt

**MOON-WHITE**  
Inox-white polished

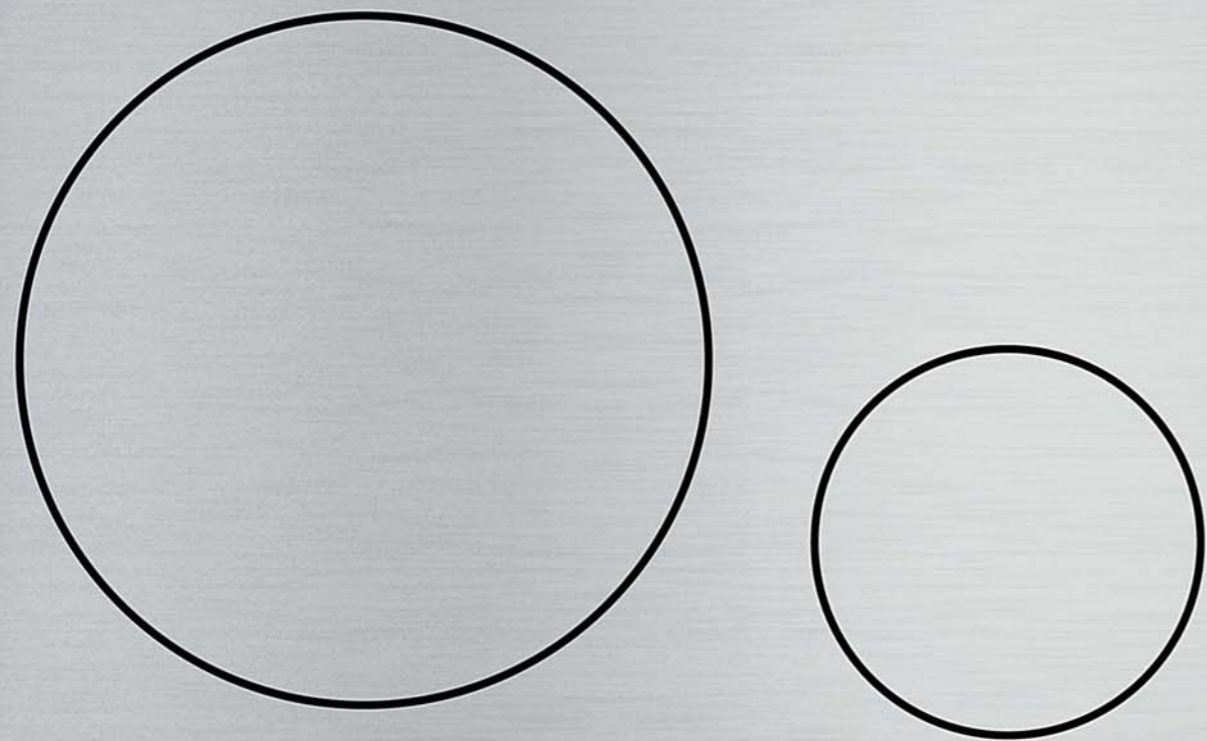

**MOON-BLACK**  
Inox-black matt

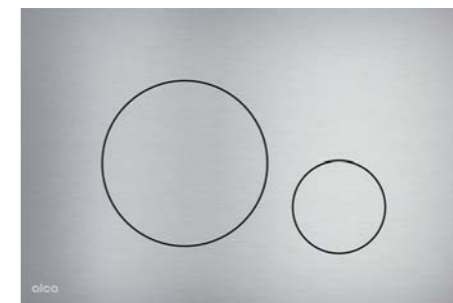

**MOON-BRASS**  
Brass

The design of the Moon flush plates was created by combining round and square shapes with the aim of reflecting new trends in the field of home design. This innovative approach allows the flush plates to fit into a variety of bathroom styles and interiors.

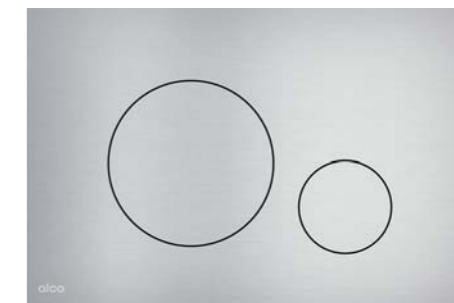

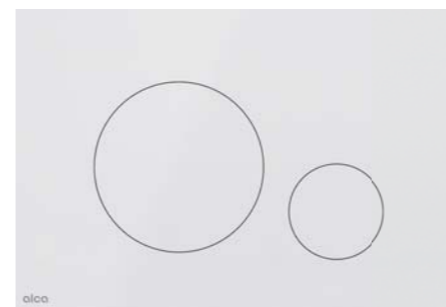

# Turn

**TURN**  
Alunox-matt

**TURN-INOX**  
Inox-semi matt

**TURN-WHITE**  
Inox-white polished

**TURN-BLACK**  
Inox-black matt

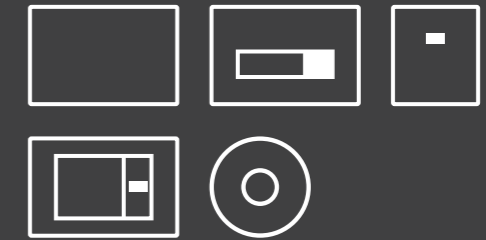

**TURN-BRASS**  
Brass

The Flat series is completed by Turn flush plates with a round flushing mechanism. Circles bring a sense of continuity, harmony, balance to the space and have the ability to visually open and expand the space. You can choose Turn in three materials with anti-fingerprint surface treatment: alunox, stainless steel, brass.

# Special

Special flush plates with IR sensors, remote control or resistance to destruction offer a modern and hygienic solution for every bathroom or space.

Automatic flushing system for urinal ASP4-K, mounting frame for urinal and sensor A107S/1120

Sensors allow users to activate the flushing with a simple hand movement, which minimizes physical contact and ensures a higher level of hygiene. These flush plates are designed to respond to presence of a person and allow for smooth and efficient use. They are the ideal choice for those who want to combine modern technology with the comfort and safety of their bathroom.

# Night Light

## APPLICATION TO DOWNLOAD

The possibility of connecting via USB to a PC or to the intelligent management of building systems.

We introduce our touch-tree flush plates Night Light, the winner of the international competition iF Design Award 2018 in the Product category of the Bathrooms section. Three design variants and sophisticated system of backlight settings and other parameters enables a unique look to any bathroom or toilet.

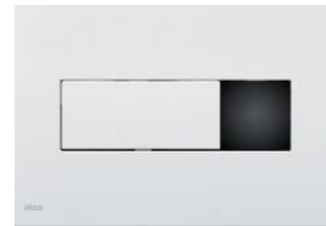

Sensor flush plate M370S,  
WC system Ecology AM115/1000E

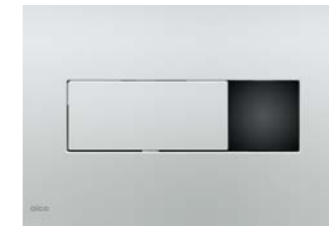

## Flushers for urinal, with sensor and other

The Sensor program includes products designed for non-contact use of toilet and urinal. The program is designed for high usage installations and fully complies with the applicable EU hygiene standards. The sensors are equipped with an adjustable hygienic rinse where the toilet bowl rinses itself with water after a selected number of flushes or after the specified time since the last flush. The Sensor program can be used for both wall-hung WC bowls and urinals.

Flush plate Antivandal M279S-SLIM,  
WC system AM1101/1200 Slim

## Antivandal

The Antivandal flush plates are made of hardened steel that resists hits and scratches. Special fastening mechanisms make unauthorized manipulation difficult, thereby guaranteeing their permanent functionality even in demanding conditions.

## Remote flushing

The innovative remote pneumatic flushing system is a solution for people with reduced mobility. It can be operated by hand or foot. The manually operated flush plates are activated with a soft touch of the hand and are placed at an optimal height for easy access. The foot pedal is suitable for those who prefer a contactless solution. A simple step activates the flushing.

## Pre-wall installation systems

### WC systems for building into solid walls

These WC systems are suitable for walling and cladding to a load-bearing wall using the wet process. They are used in the new buildings and also in renovations.

### WC systems for dry build up

They represent a practical and aesthetic solution for optimizing space in the bathroom or toilet, where plasterboard partitions are used.

### Mounting frames

Mounting frames are used for safe and stable installation of bathroom fixtures. The frames are designed to facilitate the installation of urinals, bidets, wash basins and faucets, while ensuring their firm attachment.

# WC systems technology

- 15 Year guarantee
- Easy installation
- 25 25 years availability of spare parts

- One-piece cistern
- Extra fast fill valve
- Ventilation system
- WC tablets dispenser

Our wide range of WC systems and installation frames, manufactured completely in the Czech Republic, provides a solution for every space, whether it is a small bathroom or a large commercial space. We offer top quality and reliability. Thanks to our cooperation with plumbers during development of Alca products, we guarantee maximum comfort and easy installation.

**Inlet fill valve (A160P-3/8")**  
The new side fill valve is twice as fast, extra quiet and exceptionally resistant to impurities contained in the water. It was specially developed for a pressure range of 0.05–1.6 MPa, plus with an extended warranty of 6 years. Included with all Alca WC systems. It can also be purchased separately as a universal pack of two connection variants, suitable for all cistern types (A160UNI).

**Flush valve (A06)**  
The Alca flush valve, together with the fill valve, are the key elements of every WC system. This valve offers adjustable volumes of water for both large and small flushing, allowing efficient and economical use. Thanks to its reliability and long life, it ensures consistent performance and optimal functionality of your toilet.

**Toilet tablets dispenser**  
The discreet toilet freshener disinfects both the bowl and the cistern of the WC systems. Included with each Alca WC system (with the exception of Slim and WOOD variants). It is possible to add it to the older types of Alca WC systems as an accessory (product code P169).

The construction of our WC systems is carefully designed to ensure reliability and easy maintenance. The key components are the inlet and outlet valves, which play a crucial role in the smooth operation of the toilet. The cistern is made from a single piece of plastic thus ensuring a perfect impermeability.

# WC system for bidet toilets

This WC system is suitable for mounting of the bidet toilet. Whether you already count on it in the project or plan to purchase it in the future, our WC system AM120 is perfectly prepared for it. Further more it is compatible with most bidet toilets on the market.

**AM120/1120**  
Pre-wall installation system for toilets with bidet function

**P192**  
Connection set for toilets or seats with bidet function

**P193**  
Connection board for toilets or seats with bidet function

**15** Year guarantee

 WC tablets dispenser

 System with connection for a extraction fan

## ACCESSORIES

The connection kit (P192, P193) serves to connect the water and is only installed when the bowl itself is mounted. The WC system can be used without it for a standard toilet bowl.

The connection board can be used in the event that the selected bidet bowl does not have a standard water and electricity connection location. It contains additional 13 positions where these connections can be placed, making the AM120 a universal WC system for most bidet bowls on the market.

Flush plate TURN,  
WC system AM120/1120

# WC systems Ecology

WC systems with lower water consumption not only bring economic benefits, but also contribute to environmental protection. Join us on the path to sustainability by choosing our eco-friendly WC systems, offering efficiency, reliability, and environmental friendliness.

Adapter for corner installations

**M9000**  
Complete extended accessories to be used with WC for people with reduced mobility

**P115**  
Water flow speed regulator

**M9006**  
Elbow waste connector DN90/110 flexi

**P118**  
Prolonged legs for pre-wall installation systems

**M930CR**  
Noise insulation for wall-hung WC and bidets with accessories including cover cap (chrome)

**M909**  
Double elbow 90° with sealing

**M907**  
Reduction set DN90/110

## Pre-wall installation systems / Basic

**AM112 Basicmodul**  
Wall concealed WC cistern

**AM100/1000 Alcamodul**  
Pre-wall installation system for building into solid walls

**AM100/850 Alcamodul**  
Pre-wall installation system for building into solid walls

**AM115/1000 Renovmodul**  
Pre-wall installation system for building into solid walls

**AM115/1000V Renovmodul**  
Pre-wall installation system with ventilation for building into solid walls

**AM101/1120 Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

**AM101/1000 Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

**AM101/850 Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

**AM102/1120 Jádromodul**  
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units)

**AM102/1000 Jádromodul**  
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units)

**AM102/850 Jádromodul**  
Pre-wall installation system for dry build up (especially for renovation of concrete panel housing units)

**AM121/1120 Sádromodul**  
Pre-wall installation system with integrated hygienic pipe flushing function

**AM101/1120F Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

**AM116/1120 Solomodul**  
Pre-wall installation system for dry build up (self-supporting)

**AM100/1000E Alcamodul**  
Pre-wall installation system Ecology for building into solid walls

**AM115/1000E Renovmodul**  
Pre-wall installation system Ecology for building into solid walls

**AM101/1120E Sádromodul**  
Pre-wall installation system Ecology for dry build up (plasterboard)

**AM102/1120E Jádromodul**  
Pre-wall installation system Ecology for dry build up (especially for renovation of concrete panel housing units)

## Slim

**AM1112 Basicmodul Slim**  
Wall concealed WC cistern

**AM1115/1000 Renovmodul Slim**  
Pre-wall installation system for building into solid walls

**AM1101/1200 Sádromodul Slim**  
Pre-wall installation system for dry build up (plasterboard)

## With reinforcing fibreglass mesh

**AM1112P Basicmodul Slim**  
Wall concealed WC cistern

**AM1115P/1000 Renovmodul Slim**  
Pre-wall installation system for building into solid walls

**AM1101P/1200 Sádromodul Slim**  
Pre-wall installation system for dry build up (plasterboard)

## For a toilet with bidet function

**AM120/1120 Sádromodul**  
Pre-wall installation system for toilets with bidet function

## For wooden construction houses

**AM101/1120W Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

**AM101/850W Sádromodul**  
Pre-wall installation system for dry build up (plasterboard)

## With top actuation

**AM119/850 Renovmodul**  
Pre-wall installation system for building into solid walls with top or front actuation

**AM118/850 Sádromodul**  
Pre-wall installation system for dry build up (plasterboard) with top or front actuation

## For people with reduced mobility

**AM116/1300H Solomodul**  
Pre-wall installation system for dry build up (self-supporting) – for people with reduced mobility

**AM101/1300H Sádromodul**  
Pre-wall installation system for dry build up (plasterboard) – for people with reduced mobility

**A106/1120**  
Mounting frame for handle

**AM101/1500L Medic Assistant**  
Pre-wall installation system for dry build up, height adjustable – for people with reduced mobility

## Description

- WC tablets dispenser
- System with connector for extraction fan
- Top actuation
- Flushing system 2/4 l
- For wooden construction houses
- For bidet and wall-hung WC

Sanitary ware

**WC SOLID**  
Wall-hung WC + WC seat SLIM  
SOFTCLOSE, Duroplast

**WC ALCA**  
Wall-hung WC

**WC Alca MEDIC**  
Wall-hung WC for people with  
reduced mobility

**WC RIMFLOW**  
Wall-hung WC

Mounting frames / For wash-basins and faucets

**A104/1120**  
Mounting frame for wash-basin

**A104/850**  
Mounting frame for wash-basin

**A104A/1120**  
Mounting frame for wash-basin  
and faucet

**A104AVS/1120**  
Mounting frame for wash-basin  
and faucet with built-in trap

**A104B/1120**  
Mounting frame for faucet

**A104PB/1120**  
Mounting frame for built-in  
mixer

**A117PB**  
Mounting frame for built-in mixer  
in plasterboard structure

**A117B**  
Mounting frame for faucet in  
plasterboard structure

For bidets, urinals and other

**A105/1120**  
Mounting frame for bidet

**A105/850**  
Mounting frame for bidet

**A105/450**  
Mounting frame for bidet

**A106/1120**  
Mounting frame for handle

**A107/1120**  
Mounting frame for urinal

**A107S/1120**  
Mounting frame for urinal and  
sensor

**A108/1300**  
Mounting frame for waste sink  
and faucet

**A108F/1100**  
Mounting frame with cistern  
for a waste sink with waste  
connection DN90/110 and faucet

**A108F 5:1 SET**  
Set: mounting frame, waste sink  
inc. grid, insulation, flush plate

**A108F/1500**  
Mounting frame with cistern  
for a waste sink with waste  
connection DN90/110 and faucet

**A113/1120**  
Mounting frame for wall-hung  
WC combi

**A114/1120**  
Mounting frame for wall-hung  
WC

Legend

Flush plate M57-GM-M,  
WC system AM121/1120,  
shower drain APZ12  
with two-sided grid OPTION
