Elegant Ray

RAY-GL1200

RAY-GL1204

New flush plate Ray

Ray represents a new generation of flush plates Flat. The surface finish is Alunox-matt or high-gloss tempered glass in two color variants – midnight black or dazzling white colour.

The glass flush plate in combination with the glass grid GL1200 or GL1204 (designed for shower drains APZ6/APZ16) create a perfect harmony.

EAN	8595580583637

Two-sided grid Option

The grid Option provides the choice – either full stainless steel grid or by simply rotating the grid for embedding tiles.

You can make the final decision even after installation of the shower drain without any construction modifications. Two-sided grid Option offers both grid versions in one.

The grid Option will replace Solid and Tile in the product portfolio.

Compatible with plastic shower drains:

APZ12 Optimal

APZ2012 Optimal

SOLID

Stainless steel-matt

TILE

Grid for embedding tiles

OPTION

Stainless steel-matt / for embedding tiles

EAN	8595580541033

APZ2012 Optimal

Shower drain with an edge for perforated grids or tile embedding, without odour trap

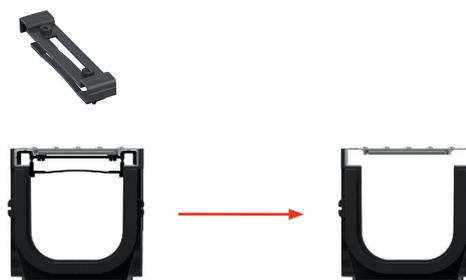

Quantity (packing) APZ20-750	14 pc
Dimensions (piece)	820×143×106 mm
EAN	8595580559496

Outdoor drain channel AVZ102-R102 – now even faster installation

One of the representatives of the HOME series of outdoor drain channels has undergone an innovation. There has been removed the separate plastic lock.

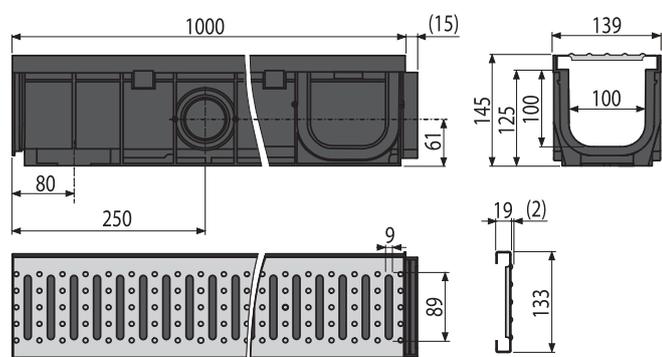

To speed up the installation of the outdoor drain, the lock is now fully integrated into the grid.

The separate plastic lock is therefore no longer part of the package of this outdoor drain channel.

AVZ102-R102

Outdoor drain channel 100 mm with plastic frame and galvanized "C" profile grid A15

Quantity (packing)	1 pc
Dimensions (piece)	139×1015×145 mm
