New products in the assortment: stainless steel and plastic shower drains in metallic shades (PVD)

alca

New shower drains in PVD colors bring not only an elegant appearance, but also maximum durability. Choose a shade that perfectly matches your bathroom – a charming rose gold, dazzling gold, modern gun metal or another color with brushed finish.

Individual in every detail

Perfect match

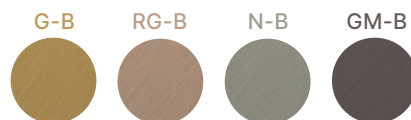

It is possible that we can match your personal taste with charming pink tones. Or you might prefer a dazzling gold colour? Maybe your natural match is the gun metal. No matter what you decide, you can always rely on certain things. The perfect colour fastness and the resistance to abrasion. And so even your bathroom can be brought to perfection in every last detail.

Unique PVD technology

The luxurious high quality surface finish on PVD products is created by the application of a very thin layer of a special coating that merges with the base material at the atomic level.

Made of the highest quality materials

The result is increased durability and longevity of the product, as well as an elegant appearance. But also an elegant look. Available in a brushed version with a more pronounced texture. Now available in four colors.

FUN-RG-P
Flush plate for pre-wall installation systems, RED GOLD-brushed matt

A400-RG-B
Wash-basin trap DESIGN DN32, RED GOLD-brushed matt

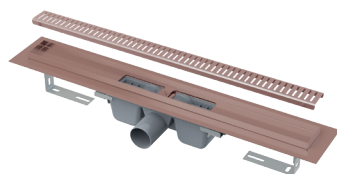

A392-RG-B
Wash-basin CLICK/CLACK waste 5/4" metal with overflow, big plug, RED GOLD-brushed matt

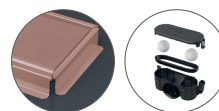

ARV001-RG-B
Angle valve with a filter 1/2"×3/8", RED GOLD-brushed matt

A55K-RG-B
Bath pop-up waste and trap, RED GOLD-brushed matt

APZ1-RG-B *
Shower drain with perforated grid, RED GOLD-brushed matt

APZ20-RG-B *
Shower drain with a stainless steel edge and full grid, RED GOLD-brushed matt

Two-sided grid TWIST

alca

The grid TWIST provides the choice – either full stainless steel grid or by simply rotating the grid for embedding tiles.

You can make the final decision even after installation of the shower drain without any construction modifications. Two-sided grid TWIST offers both grid versions in one.

The grid TWIST will replace DESIGN and FLOOR in the product portfolio.

Compatible with stainless steel shower drains:

APZ6

APZ16

DESIGN

New space-saving washbasin trap

Innovative design saves space in your washbasin cabinet

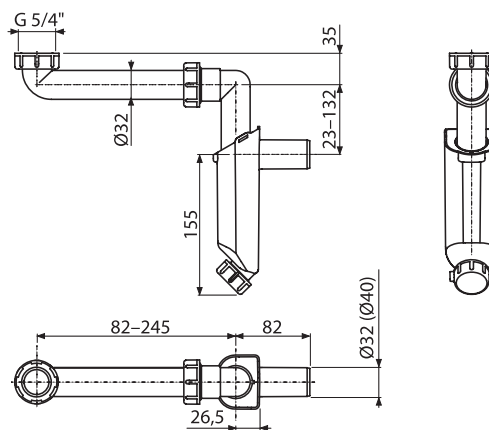

The trap shape is designed to provide maximum space under the washbasin. Despite its compact design, our trap has high flow rate. The water drains quickly, thus ensuring cleanliness and hygiene.

alca

Features

- Space-saving waste and trap
- Especially suitable for cabinets under the washbasin
- Connection to waste pipe DN40 and DN32 mm
- Flow rate up to 34 l/min
- Odour trap 50 mm
- Material: polypropylene
- Washbasin outlet is not included in the package

new

A43S-DN32
Wash-basin trap DN32 with coupling nut 5/4"

new

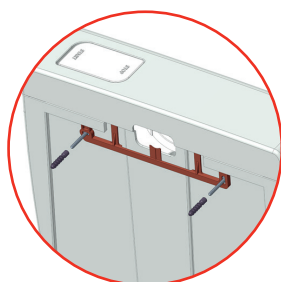

A390
Wash-basin CLICK/CLACK waste 5/4", metal with overflow, big plug

A43S-DN40
Wash-basin trap DN40 with coupling nut 5/4"

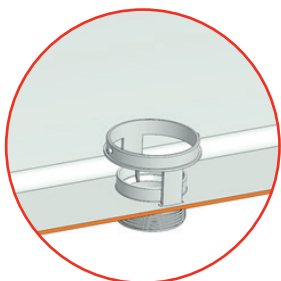

A43S + A390

Innovated WC cisterns

Faster installation of cistern on the wall

The spacing of the mounting holes for the bracket is compatible with the established market standards while also maintaining compatibility with the original mounting system. That means when replacing an older Alca cistern, the original brackets can be used.

Easier cistern assembly

The pre-installed flush valve and reduced number of parts required for the assembly significantly simplifies and speed up the installation of the cistern. A new feature is the integrated outlet.

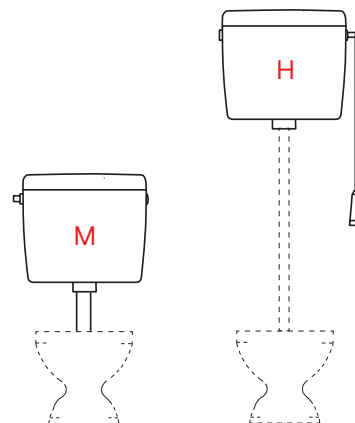

DUAL

Thanks to two separate buttons, you can easily choose between a small and large flush, while the water volume can be individually adjusted to your preferences.

START-STOP

Press one side to activate the flush, press the other side to stop it at any time. You only use as much water as is actually needed.

H = high level position
M = middle level position

Toilet cisterns range

There are basic product variants for the middle level cistern position as well as a universal version containing complete accessories.

Code	Title	WC cistern positioning		Water connection	Packaging/pallet
		high level position	middle level position		
A930-H-1/2"	Toilet cistern UNI DUAL universal, white	●	●	1/2"	56

Products made of recycled plastic

We are a responsible company that thinks about future generations. We therefore behave in an environmentally friendly manner. We produce from recycled materials, thereby ridding the planet of waste plastic and transforming it into a meaningful products. We pack our products in recyclable materials and thus do not produce secondary waste.

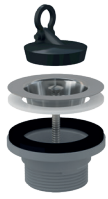

- **Made in Czech Republic**
- **Low carbon footprint**
- **Zero waste production** process
- Top quality – **strength, tightness, long service life**
- Sustainable products with a **low carbon footprint**
- **We pack products made from recycled material in recyclable LDPE film**
- **New option to order from just 1 piece (with new product codes)**

Alca PureX – water softener *

Alca PureX works on the basis of physical water treatment and uses the principle of a galvanic wet cell for effective water treatment.

- Prevents limescale and corrosion
- Extends the life of heating devices and sanitary equipment
- Does not require supervision or maintenance for at least 10 years
- Protects the pipe system from the appearance of bacteria (applies to the Blue Line series)
- Does not require external electrical power
- Does not use any chemicals
