WC system for toilet or seat with bidet function AM120/1120

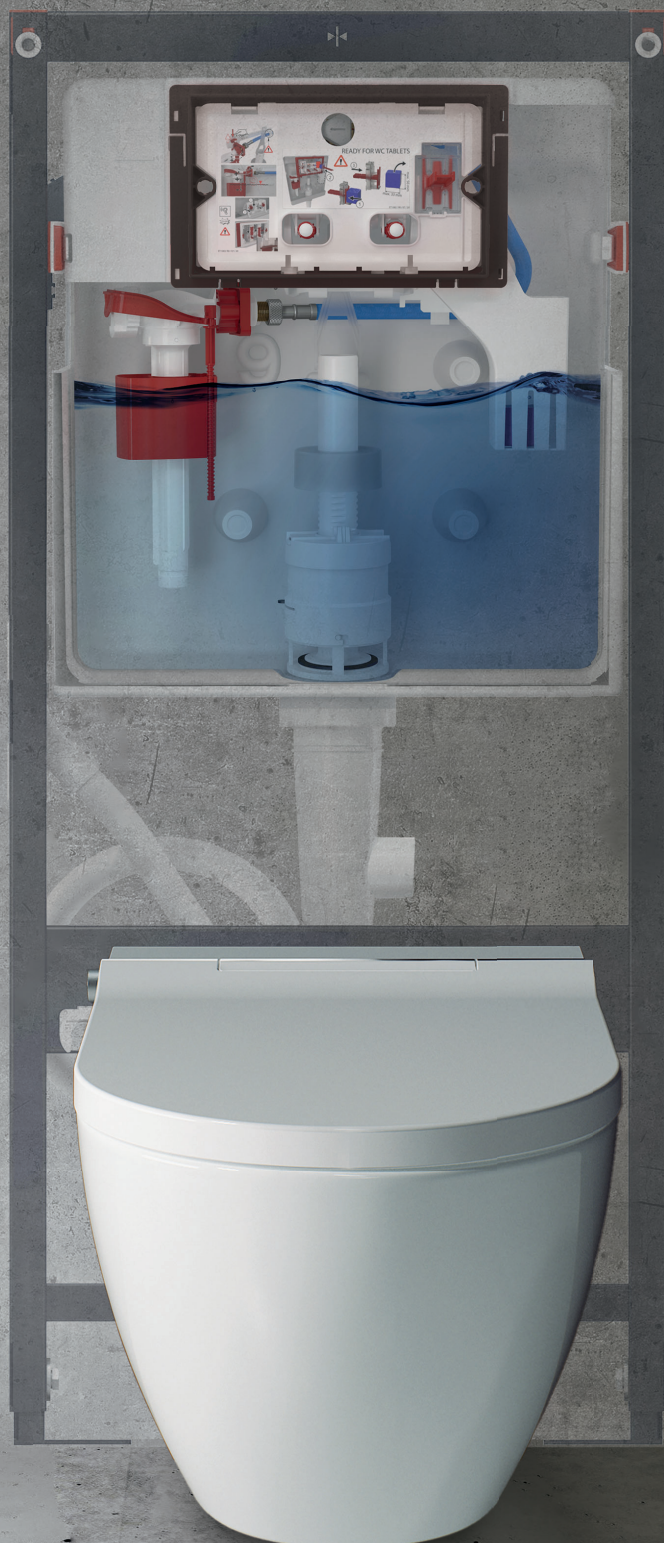

This WC system is designed for the connection of a toilet bowl or a seat with a bidet function. Whether you are already counting on it in the project, or planning to purchase it in the future, our WC system AM120 is perfectly prepared for it.

Quality, technical solution, innovation, design – these are the primary characteristics of Alcadrain products. Pre-wall installation systems ALCA have undergone a number of innovations for easier installation and better user comfort.

They also contain a toilet tablet dispenser for even greater hygiene of the toilet bowl and a connector for installation of a fan to extract air outside of the room.

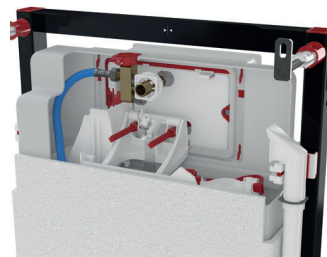

All our flush plates can be freely combined with all pre-wall installation systems ALCA. Installation is very easy and quick.

WC system for toilet or seat with bidet function AM120/1120

- The universal WC system is designed for most toilets and seats with a bidet function on the market
- The choice of toilet bowl (standard or bidet) can be made after the installation of the WC system (especially suitable for projects where the owner decides later)
- Designed for the most widespread water connection dimension, however, with help of P193 board another position can be selected according to the type of selected bidet bowl
- Concealed water and electricity supply to the toilet bowl
- Toilet tablets dispenser
- Quick and quiet water filling
- Connector for installation of the fan for extracting air outside of the room

Optional accessories

P192
Connection set for toilet or seat with bidet function

◀ P192 serves to connect the water and is only installed when the bowl itself is assembled. The WC system can be used without it for a regular toilet bowl.

P193
Connection board for toilet or seat with bidet function

The connection board can be used in the situation when the selected bidet bowl does not have a standard water and electricity connection position. It contains additional 13 positions where these connections can be placed thus AM120 is an universal WC system for most bowl models on the market.
